What is the value of attending PlugFest?

Join us September 24th - 26th!

PLUGFEST

BACnet International

BTL — BACnet Testing Laboratories

PlugFest is an annual interoperability workshop that allows vendors to test their products in a friendly and neutral environment. The event provides opportunities to improve BACnet implementations and testing methods. Mark your calendars! This year's PlugFest will be held September 24th - 26th at the University of New Hampshire's Interoperability Lab in Durham, NH. The BTL-WG meeting will be held on September 23rd. **Corporate Members and BACnet International volunteers receive discounts on registration.**

Does your BACnet product interoperate with other BACnet products in the field?

Test the interoperability of your company's BACnet products with the BACnet products of other vendors in a friendly and neutral environment.

Fix implementation errors before the product is in the field.

Save time and money by fixing implementation errors before they are discovered in the field. One-on-one and round table testing available.

Connect and test implementations with BACnet experts.

The BTL Technical Advisor and other BACnet experts will be onsite to assist and answer implementation questions.
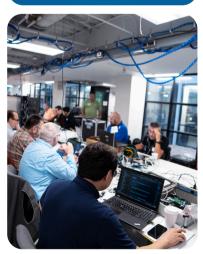

Education and networking opportunities available!

Network with fellow engineers and developers and take advantage of education sessions offered at the workshop.
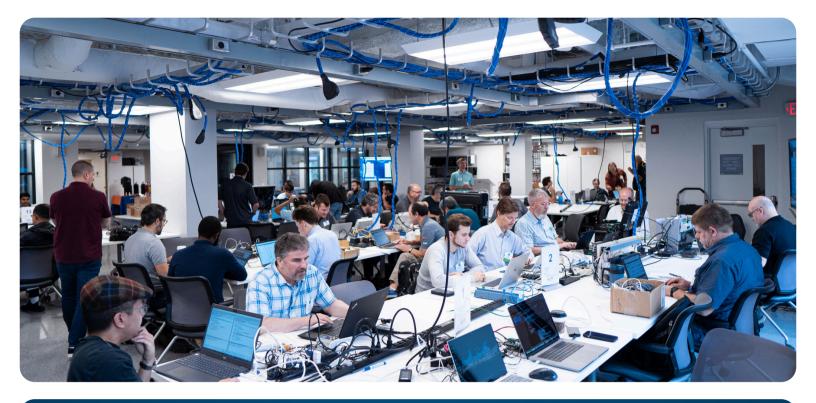

Companies are only required to share information necessary to interoperate with other products and diagnose any issues that arise. To protect sensitive information, all attendees are required to sign a non-disclosure agreement to ensure that information shared at PlugFest remains confidential.

Registration Costs and Discounts:

Member Registration:

Member Rate: **$750.00 USD**
Member Rate with Volunteer Discount: **$700.00 USD**
Member Rate with Early Bird Discount: **$700.00 USD**
Member Rate with Volunteer and Early Bird Discount:
$650.00 USD

Non-Member Registration:

Non-Member Rate: **$1,200.00 USD**
Non-Member Rate with Volunteer Discount: **$1,150.00 USD**
Non-Member Rate with Early Bird Discount: **$1,150.00 USD**
Non-Member Rate with Volunteer and Early Bird Discounts:
$1,100.00 USD

What past attendees have said about PlugFest:

"PlugFest gives us a great opportunity to find bugs that you can't find with a desktop tool. You get to test in quasi real-world environments, and it allows you to test your product before you get into the field with it."

"The cordiality is one of my favorite aspects about PlugFest. People are more than willing to sit down and talk to you and help one another with very highly technical questions. It's a chance to interact with our peers that we do not get in the office."

"PlugFest has been beneficial to our team. It's good experience to just work with other vendors to get a sense about how they do their BACnet implementations. We do find issues and see that there are different ways of doing things. It's pretty definitive to find issues in this type of environment, rather than finding them in the field. Normally, we would never see these other products in our test lab, but integrators in the field do put these products together. This is an opportunity for us to find those types of interoperability issues."
